

## Sample Letter for Non-ASR Patients

October 11, 2010

Dear Patient,

As you may know, one of the providers of hip replacement implants recently recalled one type of hip implant system, the DePuy ASR Hip System. I am writing to inform you that the hip implant I used in your hip surgery was not from the ASR Hip System. You are not affected by this recall and do not need to take any additional steps as a result of the ASR Hip System recall.

As always, I encourage you to schedule an appointment with me if you are having a problem with your hip implant.

Sincerely,
